long-lived family, his father having reached 94 years.
This variety of service indicates what was eminently true, that Dr. Livermore was a man of much learning

and great versatility. Dr. Livermore served in the union army two different periods, and was a first lieutenant.

Dr. Livermore's late residence was at Lebanon, New London county, Conn. He had usually spent his summers here and his winters in Kissimmee for the last seven years.

Dr. Livermore was a man of genial disposition and broad culture. He held the fundamentals of Christianity with clear and deep convictions while he bore a broad and fraternal spirit towbore a broad and fraternal spirit tow-ard all Christian people. Consequently he was popular among all classes of people as a pastor. SERV-US MINCE MEAT

Package condensed mince meat is made up today of the best quality of dried fruit and other items which can be found, all of which are found in the United States with the exception of spices and currants. The study of packing condensed mince meat has ex-tended over a period of 100 years and today is as near its perfection as we can possibly conceive. The sanitation m the factories in which it is packed is beyond reproach as the competition today in these lines necessitates the guarding of the most minute detail of the business. The apples used are of the best grade of New York State, where in our opinion is grown the best flavored apple known. The raisins used are of the best quality seeded variety. No expense is considered in procurring the very highest grade of spices, and sugar, as we all know, is always sugar, the different grades merely representing the different flavors or different granulation required for different purposes. Every particle of fruit or any other article used in the manufacture of mince meat is thoroughly cleaned and hand-picked by people trained to know what should and should not be used and in this by people trained to know what should and should not be used and in this manner the article comes to the house-wife cleaner by far than she could possibly take the same articles in her own kitchen, regardless of how clean it may be, and make up the filler for her mince pie. The old idea of dirt being prevalent in quantity is today disputed by the greatest authorities on food products. thorough belief that a mince meat ple made from condensed mince meat is about as cheap a dessert as can be prepared and yet as good.

For many years mince meat was considered a winter dish. Each year for the last ten our factory has had to increase its capacity during the summer months until today it runs every day of the year with a regular force of helpers. We ship goods to every part of the country the entire year. This of course means a great increase in the use of these goods over when mince meat was exten only in the winter months which means an increased sale over the former winter consumption.
